

LEDiL

PRODUCT CHANGE NOTIFICATION

Date: August 7, 2023
PCN: PCN LEDiL 194

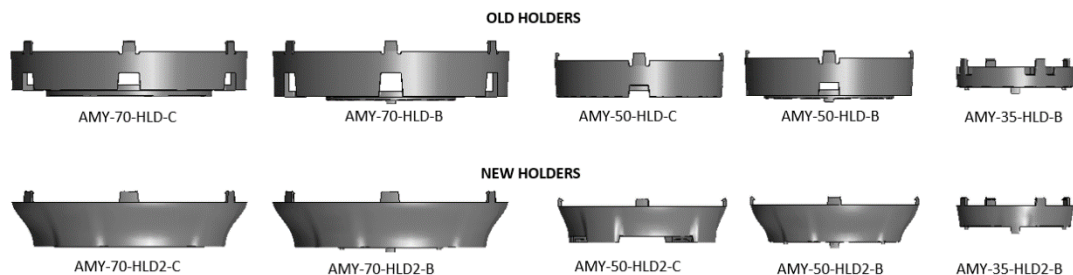

Subject: PCN 194 - Change of AMY-35, 50 and -70 holder design

Description: As part of our continuous product improvement process, LEDiL is releasing [new holders](#) with both mechanical and aesthetic improvements for our [AMY-35, -50 and AMY-70](#) product families. These new holders will replace the current ones, and the ordering codes will be updated accordingly. The new ordering codes for lens + holder assemblies can be found on pages 2 and 3 of this document.

The new holder design includes the following improvements:

1. No side openings to prevent light leakage and improve overall aesthetics.
2. A slimmer design to support tighter luminaire bodies.
3. The HLD2-C variant (compatible with LEDiL HEKLA) features a larger LED opening for improved thermal performance.
4. A white colour variant is now available as a standard option in addition to the black version

The main mechanical dimensions, such as height and width, and the connectivity interfaces will remain the same.

Assembly 2D drawings: [AMY-35](#) [AMY-50](#) [AMY-70](#)

Timeline: This change is effective immediately. Old holder assemblies will be available for orders for the next six months with the current minimum order quantity (MOQ). The last time to buy these assemblies will be on February 7th 2024.
