

LEDiL

PRODUCT CHANGE NOTIFICATION

Date: November 6, 2024
PCN: PCN LEDIL 200

Subject: PCN 200 – Change of AMY holders used with asymmetric beam versions

Description: As part of our continuous improvement process, LEDiL is releasing new holders for the asymmetric AMY lenses and assemblies and making a minor modification to the flange design of the lenses. The new holder versions come with a small counter shape to match a new slot in the AMY lens design, to ensure correct orientation of the asymmetric lens versions and prevent assembly errors.

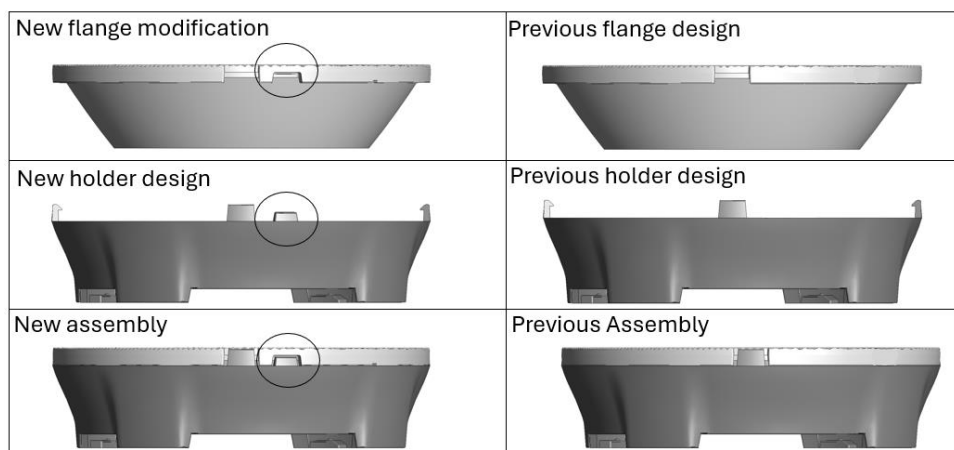

Symmetrical beams versions of the AMY lenses will also feature a slot in the flange but will continue to use the existing holders.

This change will not affect functionality of the existing products.

Ordering codes for the assemblies remain the same.

Time line: New holder versions will automatically replace the old assemblies when the old stock has been depleted.

Changes:
